TOOL KIT MEDICAL EQUIPMENT
MAINTENANCE AND REPAIR: REPAIRMANS

NSN 5180-00-611-7923

LIN: W45334

*THIS PUBLICATION SUPERSEDES SC 5180-8-A14 DATED 31 OCTOBER 1988, INCLUDING ALL CHANGES

HEADQUARTERS, DEPARTMENT OF THE ARMY

30 NOVEMBER 1993

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

SECTION I - INTRODUCTION

1. GENERAL.

a. This catalog provides an alphabetical listing for the Tool Kit Medical Equipment Maintenance and Repairman's.*

b. The component listing/hand receipt is identified by a four-segment symbol:

(1) The first segment (SC) indicates Supply Catalog.

(2) The second segment (5180) identifies the Federal Supply Classification (FSC).

(3) The third segment (8) identifies the compiler.

(4) The fourth segment (A14) distinguishes the SKO from others in the same FSC.

c. The title SKO is authorized by The Army Authorization Documents Systems (TAADS).

d. The term SKO in the SC introduction will be replaced by the specific title for each SC (i.e., MES, DES, MMS, etc.).

*This publication supersedes SC 5180-8-A14 dated 31 October 1988.

e. This Catalog is not an authorization for requisitioning NSN 5180-00-611-7923. Components listed may be requisitioned in quantities indicated when the set is authorized by Modification Table of Organization and Equipment (MTOE) or other Department of the Army (DA) authorization document(s).

2. PURPOSE.

This SC prescribes initial allowances and quantities of common tools and equipment to be utilized by the medical equipment repairman. This individual tool kit enables the medical equipment repairman to perform maintenance on medical equipment. This constitutes the minimum basic load to sustain this SC.

3. RESPONSIBILITIES.

a. This catalog is prepared and maintained by the United States Army Medical Materiel Agency (USAMMA) in coordination with the AMEDD Center & School (AMEDD C&S), and Army Materiel Command (AMC).

b. The replacement of items can be requisitioned from the source of supply indicated in the Army Master Data File (AMDF) utilizing the normal supply channels.

4. EXPLANATION AND USE OF COLUMNS.

The following information is a brief description of the contents and layout of data provided to user(s) of this Supply Catalog:

a. ACT (Action Code). A one-position alphabetic code that records the action taken in a component list/hand receipt. They are defined as:

C (CHANGE)

Indicates a change to the AMDF unit of issue, set measurement quantity/unit of issue, ARC, or Remarks Code since the previous publication.

D (DELETION)

Indicates the NSN has been deleted and not replaced.

N (NEW)

Indicates the NSN was not previously included in the basic publication or changes.

R (REPLACEMENT)

Indicates the NSN has been replaced or changed.

b. ILLUSTRATION/NATIONAL STOCK NUMBER (NSN). Not all the NSNs in this SC are represented by an illustration. The items that have an illustration show an illustration number in the "ILL NO" column of the CL/HR. For easy reference, the illustration number is also listed under each illustration.

(1) The illustrations may not be exact representations of the items in the assemblage since the products of the various manufacturers may vary in appearance. The statement "ITEM NOT ILLUSTRATED" indicates that an illustration should not appear.

(2) A cross-reference list of NSN-to-Illustration Number is provided as Section V. This list is in NSN sequence and will further assist in identifying NSNs that have an illustration.

c. ITEM DESCRIPTION. The item descriptions are listed in alphabetical sequence by item name with additional descriptive information required for identification.

(1) The first description shown is that of the MES. Subsequent descriptions are for the components by item names in alphabetical and ascending size sequence within each Accounting Requirements Code (ARC) group (i.e., N, D, and X).

(2) In addition to individual items, a major Unit Assemblage (UA), referred to as the "parent" UA, may contain a **SUB UA**, referred to as "**Level 1**" UA. These Level 1 UAs consist of individual items and possibly other SUB UAs referred to as a "Level 2" UA. The following procedures have been implemented to identify the components of the Level 1 and Level 2 UAs within the parent UA. All Level 1 and 2 UA components will be displayed in the ARC sequence.

(3) All Level 1 and 2 UAs will be displayed in the normal ARC/alphabetical sequence. The NSNs of Level 1 and 2 UAs and their components will not contain dashes.

(4) Each level 2 UA and its components will be identified with an alpha code next to the NSN. The first Level 2 UA will be assigned the letter "A". The second level 2 UA, if any, will be assigned the letter "B", etc. The remaining Level 1 components will continue after the last component of the Level 2 UA.

(5) In some instances a parent UA will have another major UA as its component. The components of the UA will be displayed in the same ARC sequences and its component NSNs will not contain dashes.

(6) The remaining parent level UA components will follow the last component of a Level 1 or Level 2 UA. This parent UA component can readily be identified by dashes in the NSN.

(7) Manufacturer's code, part number, and/or the applicable specification references follow the description, when applicable.

d. RMKS (REMARKS). There will not be any REMARKS notes for this Supply Catalog.

e. ARC (ACCOUNTING REQUIREMENTS CODE). This is a one-position alphabetic code that identifies the way an item is accounted for by the Army. One of the following codes must be entered here.

N-NONEXPENDABLE -

This code identifies items which are not used up and keep their identity throughout their life and must be accounted for in the property book.

D-DURABLE -

This code identifies items which are not used up. These items keep their identity throughout their life; Items identified by this code are accounted for by hand receipt or other similar document.

X-EXPENDABLE -

This code identifies items which will be used up. These items do not need to be entered on hand receipts; however, preprinted hand receipts list expendable items for information purposes only.

f. CIIC (CONTROLLED ITEM INVENTORY CODE). This is a one-position alphabetic/numeric code which indicates the security classification, security risk, or pilferage controls required for storage and transportation of DOD assets, DA PAM 710-2-1 identifies those items that must be inventoried monthly. The CIIC code applicable to components of this SC, unless otherwise indicated in the CIIC column, is U (UNCLASSIFIED).

g. UI (UNIT OF ISSUE).

This is a two-position code which shows the smallest quantity that an item can be requisitioned and issued.

h. PEC (PRIMARY ESSENTIAL CODE).

The revised editions of AR 40-61 and AR 200-1 will eliminate the requirements for PECs for Equipment On Hand (EOH) computation procedures. References to PECs in the future UA Listings (UAL) and Supply Catalogs (Scs) will not be shown.

i. QTY AUTH (QUANTITY AUTHORIZED).

This is the quantity authorized to be on-hand for each end item or component of an end item.

j. QUANTITY ON HAND (A Thru F).

These columns are for the actual quantity on-hand for each component listed.

5. ABBREVIATIONS:

Standard abbreviations are listed in AR 310-50 (Authorized Abbreviations and Brevity Codes) and the DoD Medical Catalog Introduction (Authorized Abbreviations Referenced to Terms). Some words will be truncated (with vowels removed that do not meet the above references) in order to fit a limited-space nomenclature field. Army acronyms used in this SC are defined in AR 40-61, Glossary, Section I Abbreviations. Nonstandard abbreviations listed are used in this publication:

AbbreviationExplanation

AR	Arm
COMBO	Combination
DIA	Diameter
E	End
ELEC	Electric
FT	Foot, Feet
HEX	Hexagon
HEXA	Hexagon
HND	Hand
IN	Inch
L	Long
LB	Pound
LEN	Length
LG	Long
LGHT	Length
MAX	Maximum
MIN	Minimum
M/M	Millimeter
NO	Number
NOM	Nominal
NONCO	Noncorrosive
OD	Outside Diameter
OVL	Overall
OZ	Ounce

<u>Abbreviation</u>	<u>Explanation</u>
PNT	Pint
POIN	Point
SCR	Screw
SGL	Single
SM	Small
SUR	Surface
SZ	Size
THR	Thread
THREA	Thread
UNC	Unified National Course
UNF	Unified National File
W/	With
W	Wide
W/A	With Angle

6. SPECIAL INFORMATION.

a. Associated Support Items of Equipment (ASIOE).

**NOTE: THERE ARE NO ASIOE
ITEMS IN THIS SC.**

b. To support Army Medical Department Activities, USAMMA also provides floppy disks for UA component listings in lieu of hard-copy versions. For each UA requested, the disk will consist of UA information in raw data format and a report file which is in the same two-section format as the current hard-copy component listing. A

brief instruction guide on "How to Access and Print the Information" is included on the disk. Additionally, a separate enclosure with the data record layout of the raw data will be included to allow the user to merge the data with the user's existing software, i.e. DBase, Lotus, or Paradox.

(2) USAMMA will not send a hard-copy version of the component listing to those activities that have the floppy-disk system. Only one method of receiving listings is allowed. The disk will be furnished just once during the current year. Only the addition of a new set by MTOE update will permit the release of additional disks per Unit Identifier Codes (UIC). Commands responsible for more than one unit should indicate this and furnish the various UICs and Uas under their command on their request. It is recommended that this original USAMMA disk be copied to your hard drive and the USAMMA disk be retained as the official record.

(3) Once an activity receives their initial UAs on disk(s), their address will be retained for an automatic distribution of the next succeeding year's annual update via disk. Activities that have automated capabilities and choose the disk method, should send their complete address and UIC along with all UAs authorized under that UIC to:

Commander
U.S. Army Medical Materiel Agency
ATTN: SGMMA-OCU
Fort Detrick
Frederick, MD 21702-5001

(4) Component authorizations are published in medical materiel set computer listings/floppy disks available from USAMMA and in the appropriate supply catalogs (SC 6545-8 Series). Revisions to components will be published annually by floppy disks in lieu of the DA SB 8-75 Series and are reflected in current year computer listings/floppy disks.

(5) Publication of component authorization changes by the floppy-disk system method, instead of the SB 8-75 Series, (and/or a current year medical materiel set computer listing/floppy disk) constitutes authority for updating assemblages in respective units and serves as the authorization document of assemblage component.

(6) Commanders should annually request a current year medical unit assemblage listing/floppy disk by submitting written requests to:

Commander
U.S. Army Medical Materiel Agency
ATTN: SGMMA-OCU
Fort Detrick
Frederick, MD 21702-5001
Telephones DSN 343-4318
COMM 301-619-4318

The request should identify the unit assemblage (UA) number, Nomenclature, Line Item Number (LIN), or NSN for each medical materiel set required.

(7) Commanders who do not have automated capabilities and need the hard-copy

listing should continue to request a current-year medical materiel UA listing by submitting written requests to the afore-mentioned address. The request should identify the UA Number, Nomenclature, Line Item Number (LIN), or NSN for each medical equipment set required.

h. AMDF INCOMPATIBILITIES.
If incompatibilities are discovered between this publication and the AMDF (Army Master Data File), the latter will govern.

i. SECTION VI - NSNS DELETED FROM PREVIOUS PUBLICATIONS AND APPLICABLE REPLACEMENTS.

(1) This Section appears in all editions subsequent to the previous edition of the Supply Catalog.

(2) It includes all deletions and replacements made to Section II since the previous edition.

7. ACCOUNTABILITY.

a. Page II-2, Section II (FROM:) identifies the element from which the property is issued. Enter the name of the organization, unit, section, or squad which issues the property.

b. The block (TO:) identifies the element to which the property is issued. Enter the name and rank of the person receiving the property. TOE/MTOE paragraph, line number, and job title may be added as optional information.

c. HAND RECEIPT NUMBER: Enter a locally assigned number.

d. END ITEM STOCK NUMBER: Enter the NSN of the MES.

e. END ITEM DESCRIPTION: Enter a short description of the MES.

f. PUBLICATION NUMBER: SC Number.

g. PUBLICATION DATE. SC Effective Date.

h. QUANTITY ON HAND: These columns are for the actual quantity on hand for each component listed.

(1) Enter the quantity on hand for each component listed. Line out all unused blocks in columns with recorded quantities.

(2) Advance all quantities to the next column when quantities change. Quantities must be advanced when changing hand-receipt holders.

(3) The person receiving the property will sign, enter his/her rank, and date the proper quantity column on the last page (ink entry). The last page is the last-numbered page and may be an odd or even number. The last page may be reserved for signature only. (The original page will have an original signature; the copy may have a carbon signature.)

8. TRANSPORTATION INFORMATION.

a. Supplies will be packed in containers suitable for operations under field conditions.

b. Packages or containers will ordinarily be of such size and weight as to permit handling by two men.

c. When practicable, crating will be such as to permit equipment to be readily accessible by removing the front, side, or top of the container.

d. To reduce the overall bulk when this assemblage is packed by the Depot, empty chests which appear as components on the equipment list will be utilized wherever possible as shipping containers.

e. The following information is applicable to this MES.

Total Weight and Volume of this MES:

Weight: 112.60
Volume: 6.023

9. POWER REQUIREMENTS.

An external power source is required to support this MES. The following NSNs operate on 115V, single-phase power with wattage requirements as shown:

<u>NSN</u>	<u>ITEM</u>	<u>WATTS</u>	<u>VOLTS</u>
3439-00-542-0454,	Soldering		
Iron, 115V, AC		50	115

10. REPORTING ERRORS AND RECOMMENDING IMPROVEMENTS.

You can help improve this supply catalog. If you find any mistakes or know a way to improve the information, please let us know. Mail your letter or DA Form 2028 (Recommended Changes to Publication and Blank Forms) direct to:

Commander
US Army Medical Materiel Agency
ATTN: SGMMA-OCU
Frederick, MD 21702-5001
